It’s never been so easy to get the warm inviting atmosphere of a real flame fire with all the convenience, versatility and efficiency of electric.

Using the latest Flame-Effect Technology, Gazco has created a beautiful range of fires that provide a versatile and stunning focal point for any home – and all without the need for a chimney!
When you choose Gazco, quality and technology are assured. In this range of contemporary hang on the wall fires, Gazco are committed to creating the ultimate in realistic electric flame effects.

Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range which includes everything from traditional to the ultra-contemporary in a wide array of styles and sizes, so whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Both Gazco and Stovax offer solid fuel and gas versions of several of the fires and stoves in this brochure.

Full details of the Stovax Group’s range of products can be found at www.stovax.com.

Gazco is an ISO9001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires and stoves in the brochure are CE marked. This means they have been independently tested to exacting European standards.

Warranty Information
Your Gazco retailer will provide you with a Two Year Warranty for your new electric stove or fire. The guarantee will only be valid during the second year, to the extent permitted by law, if the appliance has been regularly maintained by the customer as detailed in the maintenance section of the Installation and User instructions. Please note, this warranty excludes certain consumable parts. Full warranty details are available at www.gazco.com.
Studio Electric 2 Verve

04 | WALL MOUNTED FIRES
The outstanding Studio Electric range is available in a choice of three portrait and landscape sizes. With a choice of contemporary styles and simple ‘hang on the wall’ installation, these advanced technology electric fires can add stylish warmth to almost any room in your home with the ultimate ease. All Studio electric fires benefit from remote operation and feature an additional thermostatic control.

**Studio 1**

The highly efficient Studio 1 is the most compact landscape model in the range, making it the perfect choice when you are looking for a dramatic focal point in a smaller interior. As with all Gazco Electric fires, you can tailor the atmosphere to suit your mood or occasion. On the Studio 1 you can vary the heat output between 0.9kW or 1.8kW (51BTU or 102BTU), and you even have the option to enjoy the effect of the fire without the heat at all.

**Studio 2**

For effortless style and maximum impact, opt for a Studio 2 Electric fire. Their larger dimensions make an eye-catching focal point on larger walls and accentuate the highly realistic LED flame effect. The Studio’s remote provides complete control over the heat and flame settings from your fingertips. With a variable heat output between 0.9kW or 1.8kW (51BTU or 102BTU), and the option of running just the flame effect by itself, the Studio 2 offers complete versatility for your home.

**Studio 22**

The Studio 22 adds instant presence and vertical definition to any modern interior. With its unusual yet highly attractive portrait form, a Studio 22 Electric is perfect for the contemporary living room but equally suitable for creating a talking point in the dining room or making a designer statement in the study or office. On milder evenings, just sit back and enjoy the flickering flames without the heater or bring some cozy warmth to your room with a variable 0.45kW - 0.9kW (25BTU’s - 51BTU’s) heat output.
Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that will complement any stylish interior. Available in three sizes, there’s a Studio Electric Glass to offer instant striking impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall and its shallow depth means it will only protrude minimally into your room.

A stunning flame-effect with 4 levels of brightness is available at the touch of a button on your remote control. You can alter the heat output to suit your requirements, or you can even enjoy the stunning LED flame-effects with no heat at all!

Gazco’s range of Studio Electric Fires have also been uniquely developed so that the fan operation controls both the heat output and flame-effect simultaneously, offering not only product efficiency, but making them one of the quietest fan-assisted electric fires available.

Finish | Heat Output | Frame Dimensions w x h x d (mm)
--- | --- | ---
Black Glass | Studio 1: 0.9kW - 1.8kW, Studio 2: 0.9kW - 1.8kW, Studio 22: 0.45kW - 0.9kW | Studio 1: 1120 x 675 x 118, Studio 2: 1320 x 675 x 118, Studio 22: 675 x 1320 x 118

For more detailed information please see page 12.
Studio Electric 1 Glass
The stylish Studio Electric Verve has a beautifully curved frame in a choice of five stylish finishes, making a striking designer statement to be appreciated from all angles. Whether it’s a luxurious living room or a stylish study, the hang-on-the-wall Studio Electric Verve is incredibly versatile with two landscape sizes and a portrait option.

This designer fire heats your room, on command from your remote control. With two adjustable heat settings and four flame brightness levels, you can create the perfect atmosphere for every situation. Simply plug in your Studio Electric Verve and instantly enjoy the inviting glow created by our unique LED flame-effect technology.

The Studio Electric Verve comes with a removable White Stone fuel bed effect, so that you can select a minimalist contemporary effect without the fuel bed or a more natural look with the White Stones.
