It’s never been easier to get the warm inviting atmosphere of a real flame fire with all the convenience, versatility and efficiency of electricity.

Using the latest flame-effect technology, Gazco has created a beautiful range of fires and stoves that provide a versatile and stunning focal point for any home – and all without the need for a chimney!

Whether you want to achieve a modern, contemporary look or a more classic, traditional interior, this brochure will help you make the right choice for your home.
When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in realistic electric flame effects.

Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range including everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range that will add warmth and character to your home. Both Gazco and Stovax offer solid fuel and gas versions of several of the fires and stoves in this brochure. Full details of the Stovax Group’s range of products can be found at www.stovax.com.

Gazco is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires and stoves in the brochure are CE marked. This means they have been independently tested to exacting European standards.

Warranty Information
Your Gazco retailer will provide you with a Two Year Extended Warranty for your new electric stove or fire, providing it is registered with Gazco. Please note, this warranty excludes certain consumable parts. Stoves and Fires purchased outside of Gazco’s Expert Retailer Network will carry a standard One Year Warranty. Full warranty details, terms and conditions are available at www.gazco.com.
EXPERT RETAILER NETWORK

We take great care to ensure that our stoves and fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room) and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires and stoves purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at www.gazco.com.

FIND YOUR RETAILER
You can find your nearest retailer by visiting www.gazco.com/find-a-retailer
The outstanding Studio Electric range is available in a choice of three sizes including a portrait option. With their simple ‘hang on the wall’ installation and a choice of contemporary styles, these designer electric fires can add stylish warmth to almost any room in your home. All Studio Electric wall mounted fires feature an advanced Programmable Thermostatic Eco remote control that independently controls the flame visuals and heating as well as allowing Daily & Weekly scheduling. For more information see page 52.

**Studio 1**
The highly efficient Studio 1 is the most compact landscape model in the range, making it the perfect choice for adding a dramatic focal point to a smaller interior.

**Studio 2**
For effortless style and maximum impact, opt for a Studio 2 Electric fire. The larger dimensions make for an eye-catching focal point accentuating the highly realistic LED flame effect.

**Studio 22**
The Studio 22 adds instant vertical presence to any modern interior. With its unusual yet highly attractive portrait form, the Studio 22 Electric is perfect for the living room but equally capable of making a designer statement in the study or office. On milder evenings, just sit back and enjoy the flickering flames without the heat or bring some cosy warmth to your room with the Studio’s thermostatic ambient heating.

---

**Programmable Thermostatic Eco handset**
Each Studio Electric fire is controlled with Gazco’s Programmable Thermostatic Eco remote control. This powerful handset allows you to programme your fire as well as accessing the fire’s host Innovative energy saving eco features. For more information see page 52.

The Studio’s innovative energy saving features make it compliant with stringent Ecodesign energy product standards.
Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that complements any interior. Available in three sizes, this striking frame offers instant impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall. Its shallow depth means it will only protrude minimally into your room.

A stunning flame-effect with five levels of brightness is available at the touch of a button on your remote control.

Fuel Bed Effect: White Stones (removable)
The Designio2 Glass and Steel frames offer a selection of contemporary framing options for the Riva2 670 electric fire.

The Designio2 Glass adds striking black glass surround, with glossy reflective surfaces that enhance the fire’s luxury aesthetic. For understated style, the Designio2 Steel frames the fire with a sophisticated metal surround, available in either Graphite or Iridium finishes to complement your décor.

Designio2 frames can be either wall or hearth mounted depending on your tastes. Additionally, the Riva2 670 fire itself can also be installed using the optional wall mounting box, for flat wall installation.

**Finish**
- Black Glass
- Graphite
- Iridium

**Heat Output**
- 1.0kW - 2.0kW (or flame effect only)

**Fuel Bed**
- Log effect

**Frame Dimensions w x h x d (mm)**
- 735 x 569 x 40*

*Depth when recessed into wall. For more information on the optional wall-mounting box as well as firebox dimensions, please see page 55.

For information on the remote control features see page 52.
Minimalist in design but bold in statement, the Evoke frame adds further presence to the Riva2 670. Choose from Steel or Glass fronts to suit your living area.

All Riva2 670 Electric fires can be recessed into a pre-constructed hole for a more minimalist installation but can also be hung directly on the wall with the optional wall-mounting box.

See front cover for additional image.

Studio and Riva2 Inset electric fires offer stunning visuals at the touch of a button. Tall flame effects appear to dance both in front and behind the glowing ember effects for a deep, 3D display. Choose from landscape Studio sizes or the more portrait Riva2 models to suit your interior.

Designed to automatically reach and maintain the room temperature you select, these innovative fires efficiently manage heat output to maintain a comfortable ambient warmth.
Glowing ember effects

All Studio and Riva2 fires come with Fire Crystal fuel effects; a combination of amber, red and midnight blue beads that sparkle and glow when lit from beneath by the fire’s powerful LEDs. Creating the appearance of glowing embers, the crystal-effect and up lighting add a relaxing ambience to any setting.

Programmable Thermostatic Handset

Each Studio and Riva2 fire features a convenient handset, which lets you easily adjust the flame visuals using the touch-ring control. This Programmable Thermostatic handset also allows the fire to be scheduled to turn on at pre-set times and temperatures, as well as enjoy the display with or without the heat for mood-enhancing ambience all year round. For more information, see page 52.

The Studio’s innovative energy saving features make it compliant with stringent 2018 Ecodesign energy product standards.
The Studio Electric Inset’s landscape design creates a strikingly contemporary and minimalist look. Available in three different sizes and installed completely flush with the wall, the Studio Electric Inset has the versatility to complement a wide range of stylish room designs.

**Heat Output**
0.5kW – 2.0kW
(or flame effect only)

**Dimensions w x h (mm)**
- Studio Electric Inset 80: 800 x 380
- Studio Electric Inset 105: 1050 x 380
- Studio Electric Inset 150: 1500 x 380

For more detailed information on fire dimensions and remote control features, see pages 52-53.
Providing an alternative aesthetic to the landscape Studio fires (preceding pages), the Riva2 Inset Electric fires make for a stylish focal point in any setting.

The smaller Riva2 Inset 55 has equidistant sides for versatile, square proportions. The larger 70 offers is very slightly wider than it is tall, making it perfect for adding to classic fireplaces or installing with the range of mantels shown overleaf.

**Heat Output**
- Riva2 Electric Inset 55: 0.25kW - 1.0kW
- Riva2 Electric Inset 70: 0.5kW - 2.0kW (or flame effect only)

**Dimensions w x h (mm)**
- Riva2 Electric Inset 55: 550 x 550
- Riva2 Electric Inset 70: 700 x 650

For more detailed information on fire dimensions and remote control features, see pages 52-53.
For sheer elegance and ultimate sophistication, you can combine your Riva2 Electric 70 fire with one of Gazco’s beautiful natural stone mantels. There are six designs to suit both traditional and modern decorative styles, each available in either the clean look of antique white marble or the gentle warmth of natural limestone.

A Riva2 Electric stone mantel provides you with the highest levels of aesthetic and tactile appeal from the hand-finished craftsmanship that goes into each and every one.

### Mantel Styles
- Claremont
- Cavendish Bolection
- Georgian Roundel
- Grafton
- Sandringham
- Victorian Corbel

### Dimensions w x h (mm)
- Claremont: 1555 x 1143
- Cavendish Bolection: 1460 x 1320
- Georgian Roundel: 1460 x 1082
- Grafton: 1415 x 1165
- Sandringham: 1550 x 1220
- Victorian Corbel: 1525 x 1170

### Mantel Stone Choice
- Antique White Marble
- Limestone

### Heat Output
- 0.5kW - 2.0kW (or flame effect only)

### Fire Dimensions w x h (mm)
- 700 x 650

* Our stone mantels are crafted from high quality, natural material and therefore will contain naturally occurring veining, subtle tonal differences and indeed, small fossils that may be found in the limestone or marble.

† Overall visible dimensions upon installation. For more detailed information, including firebox dimensions please see page 53.
RIVA ELECTRIC STONE MANTELS

Riva2 Electric 70 with Victorian Corbel Mantel in Limestone
Logic2 Electric Chartwell with Brushed Steel Effect Frame, Highlight Polished Front and Grey Pebble fuel effect on amber flame setting.

Shown with Claremont Limestone mantel, Stovax Burlington Cast front and Polished Insert Panel.
Featuring advanced LED technology, the Logic2 Electric Inset fire range offers captivating, life-like flame visuals for instant fireside ambience. Designed to fit easily into a standard fireplace opening, 3” rebated mantel with slip or simply against a flat wall using the optional spacer frame, this versatile fire can be enjoyed in almost any interior setting.

The Logic2 features various LED flame effects including deep amber, cool blue or a combination of the two (see page 28 for additional image). Using the handset that gives you full control over the fire’s features, the Logic2’s flames can be set to five brightness settings and can also be displayed with or without the heat if desired.

The Logic2’s Programmable Thermostatic Eco handset also offers a number of convenient options, including Daily and Weekly scheduling. This advanced handset also includes various energy saving features which make it Ecodesign compliant. For more information see page 52.

These stylish electric fires come complete with three easily interchangeable fuel beds which each add a unique aesthetic. The log arrangement creates a traditional woodburning look, or, switch to either white and clear stones or grey pebbles for a strikingly contemporary aesthetics.

The versatile Logic2 has a choice of modern and traditionally styled frames and fronts (shown on the following pages) that allow you to customise your fire to suit your home.

3 INTERCHANGEABLE FUEL EFFECTS

Log-effect  White & Clear Stones  Grey Pebbles
Logic2 Electric Arts with Highlight Polished front, Brushed Steel effect frame and White & Clear Stone fuel effect on mixed flame effect setting.

Also shown: Art Deco wooden mantel in white, available from Stovax.
Taking its design origins from the Arts and Crafts movement in the early twentieth century, the Logic2 Arts embraces simplicity and clean styling. Available in a range of front and frame finishes, the Arts can be selected in a variety of combinations to suit your tastes. Using the optional spacer frame the Arts can also be installed without having to be inset into a wall, minimising building work.

For more detailed information please see page 54. See page 52 for remote control features.
The elegant Logic2 Chartwell instantly evokes the heritage and classical styling of a traditional fireplace. Available in various front and frame finishes, the Chartwell can be combined with Gazco’s many mantels, fronts and insert panels to create the perfect fireplace for your home.

For easy installation, each frame choice can be used with the optional spacer frame which allows the Logic2 to be fitted directly against a flat wall.

For more detailed information please see page 54. See page 52 for remote control features.

Vogue Midi T Highline Electric with Log & Pebble fuel effects and amber flame setting.
The stylish Vogue Midi T range comprises a collection of tall contemporary stoves. Each incorporates our Chromalight® Immersive LED systems, which combines with the stove’s assortment of authentic fuel effects to create a stunningly realistic flame picture. All Vogue Midi T stoves feature windows on either side of the stove body to supplement the large front window, ensuring the display is visible from almost any angle in the room.

The Vogue Midi T can be selected as a plinth-mounted stove or in Midline and Highline log store versions. Alternatively, a statement wall-hung model creates a floating installation for a strikingly modern look. The Vogue Midi T can be enhanced with our range of stove benches, for more information see page 56.

The Vision is a contemporary, electric stove that comes in three sizes: Small, Midi and Medium; each sporting a highly reflective black glass door, integral glass plinth, black glass top plate and contrasting stainless steel detailing for a clean stylish look.

Incorporating an eye-catching flame effect created using Gazco’s unique Veriflame™ technology, the Vision’s alluring visuals glow over a realistic hand painted log-effect fuel bed to give all the ambiance and depth of a real log fire.

The three brightness levels can be easily altered at the touch of a button on the remote control* to create a look to suit your mood. Furthermore, each level is available with or without the 1-2kW of heat output, so you can enjoy the ambiance created by your electric stove whatever the season!

To increase your interior design possibilities, you can enhance your Vision by choosing from one of ten stylish Stove Benches as shown on page 56.

For more detailed information please see page 55. See page 52 for remote control features.

*The thermostat is controlled from the stove
The Sheraton 5 Electric stove brings style, elegance, and remarkably realistic flame visuals to any interior. Cast iron bevelling and cornicing to the door, top plate and base give this stove a classic but timeless appearance that will suit modern and traditional settings alike.

Featuring a choice of fuel effects alongside our Chromalight® Immersive LED systems, the Sheraton 5 Electric gives you a variety of display options that can be mixed and matched to create a bespoke focal point.

See additional image on page 55.

For more detailed information please see page 55. See page 52 for remote control features.
The Stockton 5 Electric sits between the Stockton2 Small and Medium models (overleaf) in the range. Featuring our advanced Chromalight® technology, the Stockton 5’s flame effects are projected among the fuel bed for a three-dimensional visual, whilst the various fuel effect options are lit from above and below for increased realism. The range of LED colour settings and interchangeable fuel bed options gives you the freedom to tailor your stove’s visuals to suit your mood.

Remote Control

For more detailed information please see page 56. See page 52 for remote control features.

*The thermostat is controlled from the stove.
The Marlborough2 Electric offers you an amazingly realistic log-effect fire at the touch of a button - in two different sizes. At its heart is Gazco’s unique VeriFlame™ technology which lets you choose from two heat settings that can both be thermostatically controlled*: three brightness levels, plus the additional option for a blue flame-effect when set to high. You can even turn off the heat and just watch the stunning flame-effects perfect for the summer months.

Gazco Electric Stoves simply plug into a 13 Amp socket, so are particularly suited for conservatories, bedrooms or studies, in fact any room with or without a chimney.

**Finish**
- Matt Black

**Heat Output**
- 1.0kW - 2.0kW (or flame effect only)

**Fuel Bed**
- Log effect

**Size w x h x d (mm)**
- Small: 429 x 533 x 355
- Medium: 600 x 583 x 406

For more detailed information please see page 55. See page 52 for remote control features.

*The thermostat is controlled from the stove.*
The fine castings of the Huntingdon Electric range are brought alive with Gazco’s VeriFlame™ technology, which gives you two heat settings that can both be thermostatically controlled*. In addition, there are also three flame brightness levels to choose from as well as the option of a blue flame effect on the highest heat setting.

Your choice of flame effect is set against the highly realistic fuel bed and individually hand painted logs, perfectly mirroring the look and atmosphere of a real woodburning stove. The Huntingdon Electric range is available in a number of finishes to complement your home. For even more styling options, each size is also offered in either clear door or tracery door versions.

See additional images on page 57.
**REMOTE CONTROLS**

**PROGRAMMABLE THERMOSTATIC ECO REMOTE CONTROL**

Studio Electric wall mounted fires, Riva2 670 fires, Logic2 fires, Vogue Midi, Stockton 5 and Sheraton 5 stoves all feature Gazco’s Eco remote control. This advanced handset provides complete control over the fire, including flame colours and brightness levels as well as a number of energy saving features.

- **Daily and weekly heating** lets you program your fire to provide heat at certain times of the day or week to suit your lifestyle. Heating cycles can be easily advanced or delayed, if desired, without disrupting scheduling.
- **Adaptive start control** allows the handset to turn on the fire’s heating function up to 45 minutes in advance of a scheduled time, ensuring your room is at the right temperature when you want it to be.
- **Ambient heating control** allows you to set the optimum temperature for your room between 15°C and 25°C. The fire will automatically manage heating power to reach the chosen temperature as efficiently as possible. Eco and Boost settings offer further freedom to adjust the temperature by +/-4°C.
- **Open window detection** saves energy by turning off the fire’s heat if a sudden drop in room temperature of up to 4°C is detected, such as when a door or window is opened. Heating can be easily resumed by pressing the heat button again or closing the window.

Both Programmable Thermostatic remote controls include innovative energy saving features that make each fire or stove compliant with stringent 2018 Ecodesign energy product standards.

**VERIFLAME™ REMOTE CONTROL**

Gazco’s VeriFlame™ technology produces a highly realistic fire effect. The complementary handset allows you to independently adjust the brightness and colour of the flames and fuel bed so you can produce the exact ambience you require, giving you complete flexibility at the touch of a button.

The Gazco Electric fire collection also features the eReflex and Radiance ranges, which feature advanced LED flame and lighting technology for stunning, atmospheric visuals.

Offering captivating, realistic flame pictures in a choice of effects and colours, these designer fires are available in either wall mounted or inset versions, as well as a variety of sizes. eReflex fires can even be selected in multi-sided models for a superb bespoke installation.

A choice of elegant styling options and fuel effects allow either range to be tailored to your décor – offering the utmost sophistication and style.

For more information on the full eReflex and Radiance ranges or other Gazco products, please contact your local retailer or visit www.gazco.com
Gazco pursue a policy of continuous product improvement, therefore, whilst our products are correct at the time of the photography, we reserve the right to make alterations and amendments. Exact product details should be discussed with your retailer at the time of purchase.
