AVITA ELECTRIC FIRES

# The Next Generation of Electric Fires

Introducing the Onyx Avita: where cutting-edge innovation meets timeless elegance. The Avita is not merely an electric fire – it's a statement of refined living. Crafted to encapsulate the life and soul of a real log fire, its immersive flame visuals and ambient lighting bring evocative realism, with or without the heat.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class, award-winning products. **Find out more at [onyxfires.com/awards](https://onyxfires.com/awards)**

# Better Than The Real Thing

With next-generation technology at its core, the Avita represents a new age of ultra-realistic luxury electric fire design. An array of advanced features ensures this premium electric fire range creates a sensory fireside experience – capturing the essence of a glowing hearth, beautifully refined for the modern lifestyle.

**See page 21 for full details on all adjustable fireside features.**

## Hidden Internal Log Lighting

At the heart of the Avita are highly realistic, hand-painted oak log-effects - each carefully finished with charred detailing, and illuminated from within by hidden internal lighting that simulates the gentle glow of real burning wood.

## Spectacular Flame & Ember Visuals

The Avita offers five flame effect options to tailor the visual to your preference. Each setting features five adjustable brightness levels to refine the vibrance, while eight convenient flame presets provide instant ambience at the touch of a button.

## Ember Bed Uplighting & Downlighting

Advanced Chromalight® Plus technology brings the Avita's crystalline ember bed to life with immersive LED illumination. Lit from below, the glimmering crystals and log-effects create a vivid, lifelike glow, while discreet top LEDs cast gentle downlighting in two colour tones for added depth and realism.

## Elevate the Experience

From cutting-edge Non-reflective glass technology to ambient enhancements, the Avita transforms everyday moments into something truly extraordinary. Every detail has been carefully considered to create an immersive fireside experience.

### Premium Non-Reflective Glass

The Avita comes equipped with premium non-reflective glass, minimising reflections for a spectacular view of the captivating flame display.

### Crackling Fireside Sound-effects

The Avita's optional crackling fireside sound-effect setting brings the ambience to life, with seamless control via remote or app. Three volume settings allow you to adjust the sensory experience to your preference.

### Optional Mood Lighting

To add a touch of opulence, the Avita can be paired with an optional Mood Lighting System. These versatile LEDs can be discreetly installed around a TV or along shelves to enhance your fire's glow, creating an impressive feature for any media wall. See page 19 for details

# Designed for Living, Built for Efficiency

Along with stunning visuals, the Avita is a zero-emission electric fire designed to fit seamlessly into the modern home. Intelligent energy-saving features like a 7-day programmable timer, open-window detection, and thermostatic control, make it ideal for precise zonal heating – delivering efficient warmth on demand, while minimising energy wastage.

### Comfort Through the Seasons

With intelligent climate control and versatile functionality, the Avita's captivating visuals can be enjoyed with or without the heat - no matter the season.

### Fan-only Mode

In addition to the heating function, and the ability to turn the heat off entirely, the Avita also features a fan-only mode which provides gentle air circulation on warmer days.

### Efficient Thermostatic Heating

Featuring a powerful 2kW heater and thermostatic control up to 28°C, simply set your preferred room temperature and let the Avita automatically maintain it – delivering instant, efficient warmth when you need it most.

### Zero-Emission Heating

The ultimate sustainable heating solution, Avita Electric Fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.

# Key Features

the Avita  
Video

[onyxfires.com/avita](https://onyxfires.com/avita)

Optional Mood Lighting System with 13 colours, plus spectrum mode

Up to 2kW programmable heating. Flames can be enjoyed with or without the heat

Slides into a pre-prepared chamber for a simpler installation

Innovative Ecodesign Energy Saving features for high efficiency, such as Open Window Detection and Adaptive Start Control. See page 21 for details.

Downlighting with 2 colour options

Internally lit split Oak log-effect with pulsing effects, featuring 3 colour choices.

Media wall compatible in three sizes.

Choice of control options including remote, app or touch panel. See page 12 for details.

Multiple flame options

NON-REFLECTIVE GLASS

Fan-only mode, delivering gentle air circulation

## Multiple Installation Options

Single, two-sided corner and three-sided installations - all from one fire

Single-sided

Two-sided corner

Three-sided panoramic

Crystalline base with glimmering ember bed uplighting in 8 colours, plus spectrum mode

Optional crackling sound effects for immersive experience

# Craft Your Centrepiece

## Choose your size

Thoughtfully designed to complement your interior style and décor, the Avita is available in three sizes.

**Avita 120RW**

W: 1226 x H: 450mm\*

**Avita 160RW**

W: 1626 x H: 450mm\*

**Avita 190RW**

W: 1926 x H: 450mm\*

## Choose your installation

Single, left or right corner, and three-sided panoramic options - all from the same fire.

**Single-sided**

**Two-sided corner**

**Three-sided panoramic**

## Easy-Installation

Making single-sided configurations even simpler for the popular media wall installation, all three sizes of the Avita are designed to slide into a pre-prepared hole in the wall, when used in conjunction with the Edge XL frame, which conceals the installation opening.

# Framed to Perfection

## Seamless Single-Sided Installation

When configuring your Avita as a single-sided fire, there are two stunning frame options – Edge+ and Edge XL.

### Edge+

The Edge+ finishing frame comes supplied as standard and provides a clean, modern border that neatly conceals any minor plastering imperfections around the opening.

### Edge XL Frame

More than just a bolder design statement, the Edge XL is engineered for function too offering the ultimate ease and time saving installation. Designed to allow the fire to simply slot into a pre-prepared and finished chamber opening, its wider profile covers the parts of the fire housing which would otherwise need boarding over in a more conventional installation where you would install the fire first.

**Available in all three Avita sizes, both frames offer the perfect solution for a streamlined, stylish media wall.**

# Complete Control

Controlling the Avita is effortless. Whether you use the fire's touch panel, remote control, or our intuitive app – compatible with both iOS and Android devices, adjusting the atmosphere is simple. A discreet display on the fire itself that illuminates on touch keeps all your settings in sight, and eight presets offer instant ambience. Take full control over heat output or simply set your desired temperature and let the Avita do the rest.

## Year-round enjoyment

Set your ideal room temperature – up to 28°C – and the Avita's 2kW heater automatically adjusts to maintain it efficiently.

Easily create up to four daily heating schedules to suit your lifestyle, with room to save up to three weekly programs. With Adaptive Start Control, your Avita automatically determines the correct time to turn on in advance of a pre-set time to reach your desired room temperature, ready for when you sit down and relax.

## Download the App

Download the app using the QR code or visit:

Alternatively you can search for MUS flame in the App Store.

# Experience the Exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class flame effect fires. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

Offering a renowned and varied product range, the Stovax Heating Group's portfolio includes everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Full details of the Stovax Group's range of products can be found at: **stovax.com**.

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires in this brochure bearing the CE and UKCA mark. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

We are proud to be part of the award-winning Stovax Heating Group, recognised for our high-quality products and innovative technology. Find out more at **onyxfires.com/awards**.

## Expert Retailer Network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our Avita range is exclusively available from our experienced, independent retailers' showrooms. They will be happy to show you a selection of models in your local showroom and answer any questions you might have. These independent retailers will discuss your individual requirements covering both technical issues and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online. We would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Onyx fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at: **onyxfires.com**.

## The Onyx Promise

Your Onyx retailer will provide you with a Five-Year warranty, extending your standard warranty from two to five years when you register with Onyx. This warranty includes a consumables guarantee for the first year - see online for further details at [onyxfires.com/warranty](https://onyxfires.com/warranty)

# TV Size Guide

Choosing the size of your Avita electric fire and your TV will come down to both the space you have available and your personal preference. Actual TV sizes vary across manufacturers, and the way your TV is fitted (for example into a cavity recess) will also impact the way it looks in relation to your Avita fire. Your retailer will often be able to help you size up your Avita and TV to achieve the perfect look.

## Suggested Avita and TV size combinations

| Product     | TV Size*  |
|-------------|-----------|
| Avita 120RW | 43" - 60" |
| Avita 160RW | 50" - 80" |
| Avita 190RW | 65" - 90" |

\*TV sizes refer to the standard diagonal screen dimension that TV manufacturers state when describing the size of their products. If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV's advertised size. We also recommend measuring the width and height of your TV if lining it up with the Avita below.

## Optional Mood Lighting System

Onyx Avita fires can be paired with an optional Mood Lighting System. Up to six metres of flexible LED strips can be discreetly installed around a TV or along shelves to enhance your fire's glow, a fantastic addition for any media wall. The strips can be split to run in opposite directions, giving you complete flexibility in how you position them, and for seamless control, the optional Mood Lighting System is fully controllable with the remote and app.

# Convenient Control

Both the intuitive app and Eco Remote Control give you effortless command over the Avita's Chromalight® Plus visuals and adjustable heat settings, allowing you to tailor the ambience to suit every moment.

## Flame and Embers

The Avita's choice of five flame options, nine ember bed uplighting settings, and five adjustable brightness levels, can be tailored to your liking for a bespoke visual.

## Timers and Scheduling

Schedule daily and weekly programmes for both flames and heat, delivering warmth or ambience when you want it. With Adaptive Start, the Avita can turn on up to 45 minutes in advance of a pre-set time to reach the set temperature, ready for when you sit down and relax.

## Open Window Detection

If the room temperature drops by 4°C within eight minutes, such as when a window is opened, the Avita's heater switches off to conserve energy. Resume heat easily via the remote or app.

## Downlighting

Discreet downlighting LEDs, subtly integrated into the top of the Avita's firebox, illuminate the fuel bed in a choice of two hues, enhancing depth and ambience with refined precision.

## Optional Mood Lighting

The Avita's optional Mood Lighting system lets you set the tone with a curated palette of 13 colours or the steadily changing spectrum mode - all effortlessly controlled via the app or remote to complement your space and mood.

## Ecodesign Compliant

The Avita's innovative energy-saving features make it compliant with stringent Ecodesign energy product standards.

## Internal Log Lighting

Highly realistic oak log-effects feature state-of-the-art internal log lighting, with a choice of three colours to complement or contrast with the flame and fuel bed lighting.

## Thermostatic Heating

With a powerful 2kW heater, the Avita thermostatically maintains your chosen temperature up to 28°C with effortless efficiency.

## Crackling Sound-Effects

Complete the sensory experience with optional crackling sound-effects, with three levels of volume adjustment via the remote or app.

## Fan-only Mode

Enjoy the Avita's visuals with heat, without heat, or switch to fan-only mode for gentle air circulation whatever the weather.

# Electric Innovation

Onyx's electric fire collection also includes standout designs like the Fusion and Orbit. The Fusion 150RW combines luxury aesthetics with cutting-edge Authentic Flame Technology, offering a crystal-clear display of lifelike flame visuals and a range of customisable settings to suit any mood. Meanwhile, the ceiling-hung Orbit creates a striking suspended centrepiece with panoramic flame views and realistic oak log effects – rotatable up to 340° for a captivating experience from almost any angle.

The Stovax Heating Group's prestigious electric fire collection also includes the Gazco eReflex and eStudio ranges, offering a variety of installation styles and fuel effects. From single-sided to panoramic three-sided designs, each fire features immersive Chromalight® LED technology, delivering atmospheric visuals and flexible installation options. Together, these fires represent the pinnacle of electric innovation, tailored for modern, design-led living.
